Subject: Competition for Wannabes

Dear People of the Bodybuilding nation

Can you guys remember me writing, telling you about this competition on the 3rd December, organized by a non SSC recognised federation called SBBF? well true enough the competitors are limited, a lot of them has pulled out and whatever left is just wannabes that could not even win it proper through The actual National Sports Association- SBBF's competitions.

Did you even hear of any (just 8 days away) of the past and current National Champions or good bodybuilders participating in this competition. Well let me confirm it with you, NONE! So what kind of a show or competition do you think you will be watching, let me be sarcastic here; if you just want to see lousy bodies in trunks, just pay a dollar or so, go to the public swimming pool and you will see plenty. Seriously why pay \$15 dollars to waste time watching this circus act that the person who will flip around is you , because you will flip in anger of being cheated. With less than 10 competitors, how many categories will you be watching?? And With so little competitors, and of inferior quality, it is obvious evidence that this competition is a freaking scam, to just let the organiser's wife turn into a pro. Do you know that they are so desperate to fill the seats that they even had to sell VIP seats, can you imagine selling VIP seats! And for \$35! I thought VIP seats are for Ministers, sponsors, contractors , people of importance only and are not for sale????!!!! Be careful, if you have not purchased any tickets, hold it back, because the show may not be on, and even if it does , don't throw your money away. I am sure you can find better things to do with your money and valuable time.
